SANI-99 for AGRI

Veterinary-Grade Biosecurity Solution for Agriculture

Key Benefits

1. Powerful Disinfection

- 99.99995% effective (Log 7 level)
- Effective against bacteria, viruses, and fungi
- Proven against E. coli, Salmonella, and Avian Influenza

2. Long-Lasting Protection

- Active for up to 90 days after application
- Reduces the need for repeated treatments
- Saves time and operational costs

3. 360° Biosecurity Coverage

Protects:

- Livestock (cattle, sheep, pigs, poultry)
- Crops
- Equipment and facilities

Role of SANI-99 for AGRI in Foot and Mouth Disease Control

SANI-99 for AGRI plays a critical role in biosecurity by helping prevent and control the spread of **Foot and Mouth Disease (FMD)**. It has strong virucidal properties and is effective against a wide range of pathogens, including viruses responsible for diseases such as FMD.

Through regular disinfection of:

- Vehicles
- Equipment
- Footwear (footbaths)
- Animal housing and access points

...the risk of cross-contamination between farms and animals is significantly reduced.

Its long-lasting effect (up to 90 days) strengthens biosecurity protocols and helps create a protective environment that limits virus transmission.

This is a **preventative solution** that is critical in protecting livestock and minimizing economic losses during outbreaks.

4. Safe & Non-Toxic

- Alcohol- and chlorine-free
- Safe for use around animals
- No special PPE required

5. Cost-Effective

- 6kg produces up to 1000 litres of solution
- High concentration = lower cost per use

6. Wide Application Areas

- Animal housing and poultry facilities
- Dairy farms and abattoirs
- Equipment and vehicles
- Water systems and irrigation
- Greenhouses and crops

7. Certified & Trusted

- International approvals (ECHA, DEFRA)
- Compliant with South African standards (SANS)

Why This Matters

SANI-99 for AGRI delivers a complete biosecurity solution that helps:

- Prevent disease outbreaks
- Protect production
- Improve animal health
- Ensure food safety

Learn More

For more information on SANI-99 for AGRI and other agricultural solutions, including demonstrations videos and photos after treatment please do not hesitate to contact us.

You will receive detailed insights on:

- Poultry Sector Solutions
- Abattoir Disinfection Solutions
- Livestock Biosecurity
- Dairy & Food Production Hygiene
- Water Treatment & Sanitation
- Before and after photos (treatment)

About Ubuntu Life Resources

Ubuntu Life Resources is the **official agent and distribution partner** for this product.

We invite you to:

- Consider a trial on your farm
- Request pricing, availability and samples

This solution can have a **direct impact on your farm's biosecurity and profitability.**

Kind regards,

Sanchia-Lynn Smit
